

ON CONTROLS ADDS CENTRALITE TO PARTNERS IN CONTROL COOPERATIVE PROGRAM

Detroit, MI March 16, 2015 – O On Controls (www.oncontrols.com), a leader in cloud-based smart home and commercial control solutions for professional installers, has announced today the addition of CentraLite to their Partners in Control cooperative program. The Partners in Control program has been created to achieve seamless compatibility between the On Controls platform and a vast array of connected device manufacturers from related residential and commercial market applications such as audio, video, HVAC, security, lighting control and others.

Based in Mobile, Alabama, CentraLite Systems, Inc. was founded in 1997 by James L. Busby. The company has become a trusted and award-winning manufacturer of control and energy management products that are currently distributed and installed throughout the US and to over 50 countries worldwide. CentraLite's Elegance Lighting Control System is a smart, cost-effective technology engineered for any new construction project, providing energy savings, reduced maintenance, enhanced security and overall livability of individual rooms and open spaces. "We are pleased that our advanced Elegance Lighting technology is now compatible with the On Controls automation platform, making integration easy and efficient for installers while giving homeowners the finest user experience imaginable," said Jimmy Busby, President and CEO of CentraLite.

"On Controls is excited to offer compatibility with the CentraLite Elegance lighting control system to our network of integrators and end-users, increasing installation efficiency while broadening the range of options for consumers," commented On Controls Sales VP Adam Gold.

The On Controls Partners in Control program will help bring best in class manufacturers and integrators together in the rapidly growing connected devices marketplace. Interested manufacturers can learn more about the Partners in Control program by contacting Adam Gold at: partners@oncontrols.com or +1 313 373 7619.

ABOUT ON CONTROLS

On Controls brings the convenience, luxury and security of advanced control and automation technology for residential and commercial applications to the Apple and Android phones and tablets already familiar to millions of users. A Wi-Fi-based platform that won the CEA 2014 Control Product of the Year award amongst other accolades, On Controls leverages the efficiency of the cloud, enabling integrators to deliver more features and better service to their commercial and connected home clients. From a single room to the largest applications, On Controls allows integrators to initialize, upgrade, add new features and sync remote setups to a client’s tablet or phone via a web portal from anywhere in the world. On Controls is an intuitive, reliable, robust, and reboot-free system that will simplify your life!
